

UTTOXETER GOLF CLUB

NEWSLETTER

February 2016

Welcome to the Uttoxeter Golf Club newsletter.

The newsletters aim will be to provide you with information on up and coming golfing and social events, course information, along with reports from the Ladies and Seniors sections.

COURSE UPDATE

- It has been noted that since the course closure letter went out last month that there has been a great take up on the advice of carrying and adhering to the newly roped areas. This is greatly appreciated and will help our course to recover quicker for the main playing season.
- Could members please keep away from roped areas, **especially** those with trolleys.
- Stump grinding is due to take place (weather depending) on the 22/2/16
- A special thank you goes to Graham Waldron for making the new low level stakes that are now in use around the course and other members who have donated time and materials to help out around the course.
- The course is to be re-measured and rated later in the year, this will include the new 9th tee.
- A Course Liaison group has been formed with members of all abilities from various sections across the membership.

-
- Already the club has seen several new faces in the early part of 2016, please spread the word about our new membership rates to your friends.
 - A big thank you to all those members who have paid their subscriptions to date, to the few that are left if you could make your payments at the pro shop or to the club secretary as soon as possible that will be of great help to the running of our club. Those who have not renewed will have their playing rights suspended.
 - Out of 161 members due for renewal in January, 154 have renewed so far and we have 6 new members to date.
 - If you have not already activated your BRS booking system account or are having problems logging in, then please see Adam in the pro shop for help.

MEMBERS EVENING - 31 March 2016 - 7pm

Members of Uttoxeter Golf Club, here is your chance to come and talk to the directors of club and let us have your views and ideas on what sort of job we are doing for you and how we can improve all aspects of the golf club. We hope to have the agronomist on hand on this evening to explain how our greens and course are progressing for the future.

Don't forget to follow us on Facebook and Twitter for up to date course reports and announcements.
